

To offeror:

Fluor Daniel Fernald under prime contract DE-AC24-OR21972 with the United States Department of Energy (DOE) Fernald, invites you to submit a pre-qualification Go-No-Go proposal to provide radiological control services as outlined in the Request For Proposal (RFP) GNGF98P0002.

FDF shall evaluate all responses in accordance with the criteria stated in RFP GNGF98P0002, and shall advise each offeror in writing either that it will be invited to participate in the resultant acquisition or, based on the information submitted, that it is unlikely to be a viable competitor.

Requests for information concerning this RFP shall be directed to the undersigned. The undersigned individual will be the sole point of contact. In my absence, you may contact Jack Hott by e-mail at [jack\\_hott@fernald.gov](mailto:jack_hott@fernald.gov).

All submittals are due May 26, 1998 by 4:00 P.M. Eastern Standard time. You may e-mail me at [carol\\_pulley@fernald.gov](mailto:carol_pulley@fernald.gov). The business address for overnight deliveries is 175 Tri-County Parkway, Cincinnati, OH 45246.

Sincerely yours,

Carol Pulley

## REQUEST FOR PROPOSAL RFPGNGF98P0002

### PRE-QUALIFICATION GO-NO-GO CRITERIA

May 19, 1998

#### 1. GENERAL

Fluor Daniel Fernald (FDF) is the prime contractor at the U.S. Department of Energy's Fernald Environmental Management Project (FEMP). The current mission of FDF is the ongoing site remediation and disposal of structures, buildings, streets, and land of the former uranium processing facility. This work includes environmental monitoring, waste segregation/packaging/minimization/shipping/storage activities, implementation of site specific plans to provide for RCRA closure and corrective actions.

#### 2. OBJECTIVE

It is FDF's objective to obtain Radiological Control Technicians (RCT), Instructor/Developers, Health Physics professionals and Health Physics technicians for FEMP project and program support. The Seller will provide professional and technical personnel to assist appropriate FDF personnel in performing radiological health and safety related activities at a hazardous materials site.

#### 3. SCOPE OF WORK

The scope of work is to supply radiological control services of radiological health and safety professionals and technicians, approximately 100, in support of the remedial activities at the FEMP. The work described is a general description of potential activities and is not all inclusive of the activities which may be required. FDF will provide a 2 week notification prior to the date when services are required.

#### 4. SIC CODE AND SMALL BUSINESS

- a. The Standard Industrial Classification (SIC) code for this acquisition is 8744.
- b. The small business size standard is 500 employees in accordance with Federal Acquisition Regulation (FAR) Part 19.

5. NOTICE OF TOTAL SMALL BUSINESS SET-ASIDE (jul 1996)

(A)Definition.

“Small business concern,” as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation. (B) General. (1) Offers are solicited only from small business concerns. Offers received from concerns that are not small business concerns shall be considered non-responsive and will be rejected. (2) Any award resulting from this solicitation will be made to a small business concern. (C)Agreement. A small business concern submitting an offer in its own name agrees to furnish, in performing the contract, only end items manufactured or produced by small business concerns in the United States. The term “United States” includes its territories and possessions, the Commonwealth of Puerto Rico, the trust territory of the Pacific Islands, and the District of Columbia. If this procurement is processed under simplified acquisition procedures and the total amount of this contract does not exceed \$25,000, a small business concern may furnish the product of any domestic firm. This paragraph does not apply in connection with construction or service contracts.

6. EVALUATION

All offerors must meet the following go-no-go criteria as set forth below:

1. Must have provided at least 50 radiological control technicians at one time to DOE and/or NRC licensed nuclear facilities within the past 48 months. To support this request, submit a list providing contractor names, location, and contract period of performance.
2. Submit twenty (20) resumes for radiological control technicians.
